

# User stories

by team NullPointerException

## **As an unregistered user I want to**

- see images, comments and tags
- sort images by upload date / newest
- sort images by likes / most popular
- browse images by tags
- see other users' profiles and their uploaded images

## **As an admin I want to**

- delete images
- delete/ban user accounts
- add and remove tags on images
- remove comments on images

## **As a registered user I want to**

- do what unregistered users can
- upload images
- download images
- delete my own images
- see other users' images
- like images
- comment images
- favourite images
- see my favourite images
- add tags to images
